### Program Overview

Maritime Cultural Heritage (MCH), as an important legacy of the cultural achievements of the Maritime Silk Road, connects cultures and countries, inspires exploration and innovation, and facilitates communication and mutual learning. In recent years, the diversity of both tangible and intangible MCH has been on the brink of decline due to natural and human influence.

To reverse that trend, the UCMSR is planning this summer program to preserve and explore MCH which has universal value. Through this program, we aim to raise the awareness of preserving MCH, nurture talents, promote mutual understanding and friendship, thus creating a prosperous global community with a shared future.
