

TECHNISCHE
UNIVERSITÄT
DARMSTADT

International Summer University

GERMAN ENGINEERING AND LANGUAGE

July 05 - August 01, 2020

German Engineering (4 ECTS)

The various engineering courses introduce German Engineering with workshops and group projects surrounding themes of: Automotive, Aeronautical, Mechatronic and Production Engineering.

Students will also have the opportunity to gain an insight into German Engineering by visiting different companies such as Mercedes-Benz, Continental AG, EUMETSAT (European Organisation for the Exploitation of Meteorological Satellites) ... and many more!

Choice of Courses (2 out of 4)

WEEKS 1+2

Aeronautical Engineering or Automotive Engineering

WEEKS 3+4

Production Engineering or Mechatronic Engineering

Cross-Cultural Competencies Training for Engineers (2 ECTS)

The International Summer University will introduce students to practical techniques, skills and knowledge to help successfully arrange themselves within an intercultural working and learning environment throughout Germany.

German Language (4 ECTS)

Willkommen in Deutschland!

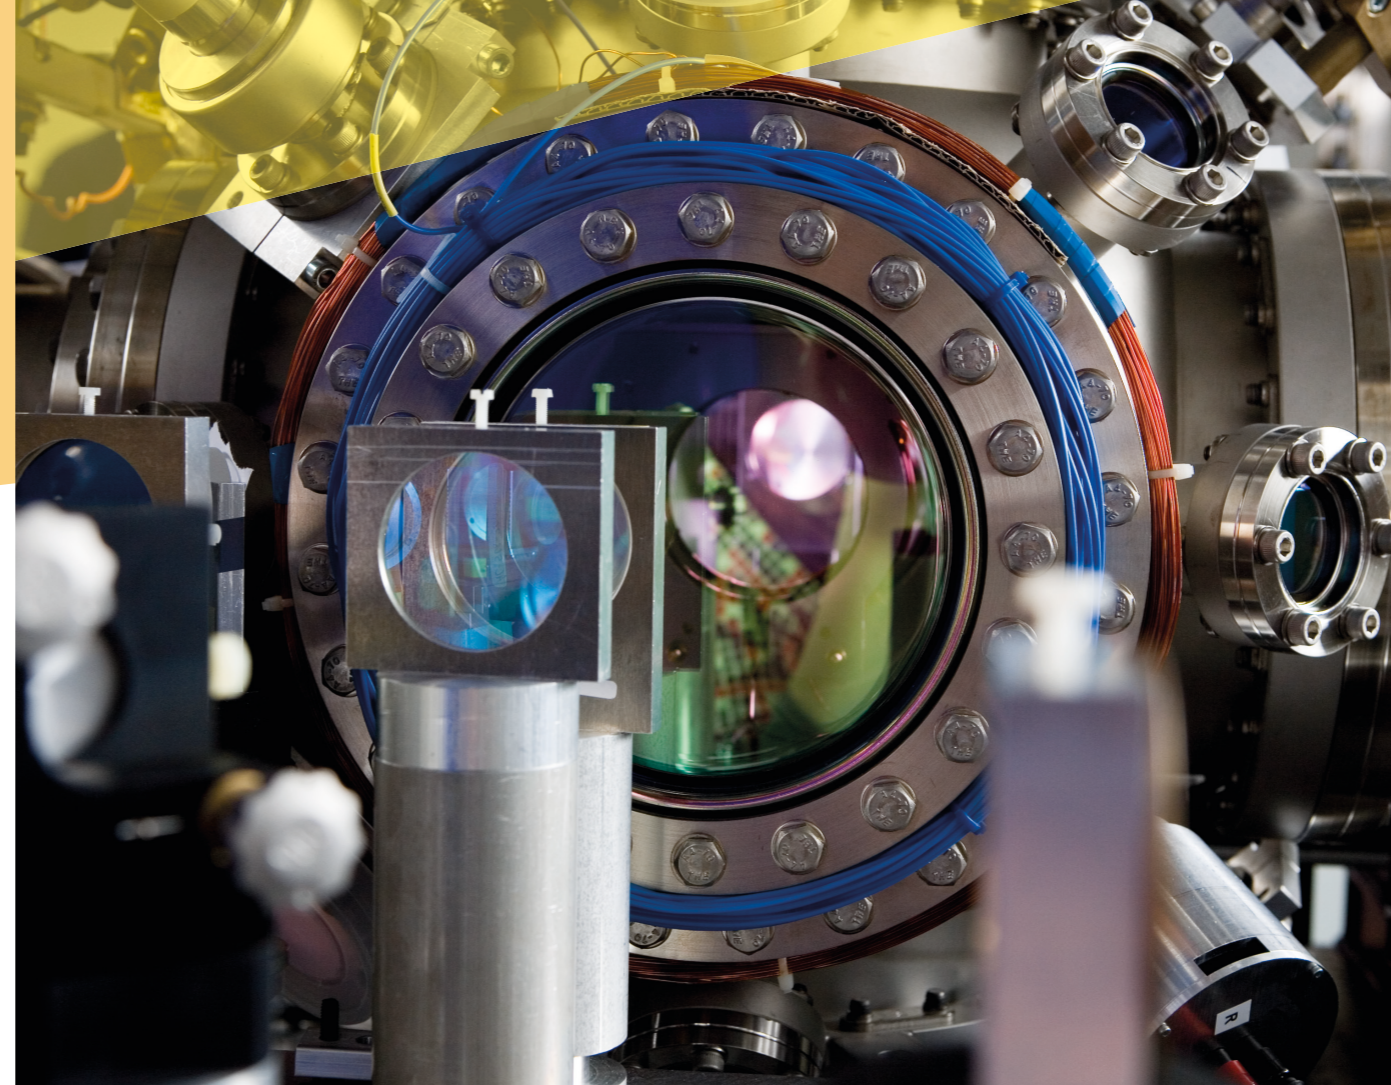

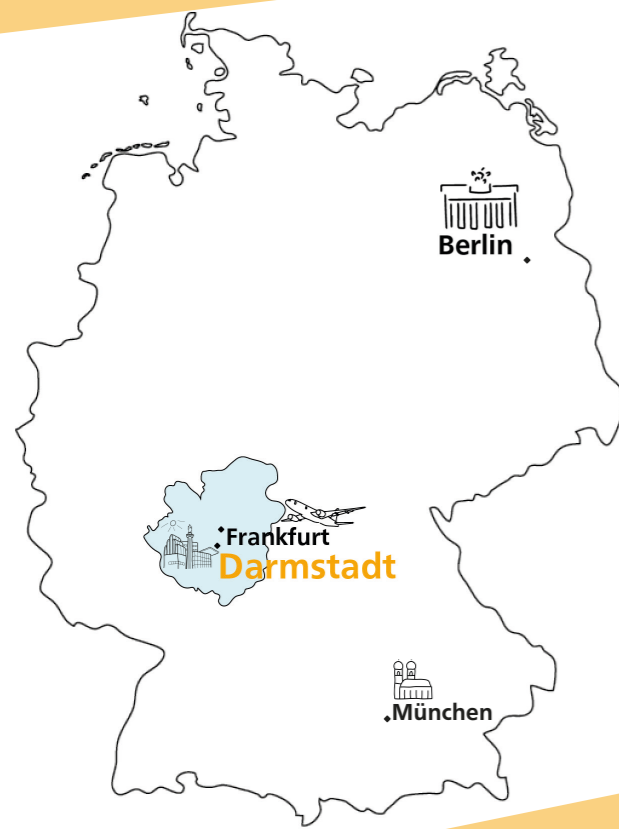

Students will develop German speaking, reading, writing and listening skills in the intensive German language courses. The language courses will also introduce vocabulary based on the topics covered in the engineering courses. We offer German courses at different levels.

Benefits

Total of 10 ECTS = 5 US/Canadian Credit Points

6 ECTS: German Engineering & Cross-Cultural Competencies Training for Engineers
4 ECTS: German Language

Weekend in Munich
Social and Cultural Programme around Rhein-Main Hesse Area
